**CHANGING CREO 1.0 LICENCE SERVER**

By: Herli Surjanhata

Go to **Creo 1.0 Parametric** installation directory e.g. **C:\PTC\Creo\1.0\Parametric**.

Select **bin** folder and right-click **ptcsetup.bat** -> select **Run as administrator**.
Click **Next**.
If your licenser server is not ucslic1.ucs.njit.edu, click **Edit**.

Enter the new license server.

Click OK.
Click **Next**.
Click **Configure** and configuration process will start running.
Click **Exit**.
Repeat the same procedure for **Creo Simulate**, 
CHANGING CREO 2.0 LICENCE SERVER

Right-click **Setup.exe** in the installation folder or DVD of **Creo 2.0**.
Select the **Setup license** option.

Click **Next**.
Select the **I accept the license agreement** button and click **Next**.

Enter the license server e.g. 7788@ucslic1.ucs.njit.edu as shown below.
Enter license server here!

After **Available** is shown under the **Status** box, click **Finish**.
Navigate to the following folder e.g. C:\PTC\Creo 2.0\Creo 2.0\Parametric\bin

Open `parametric.psf` file using Notepad or Wordpad and change the license server as shown below.
