

How to Change Windows 10 Sleep Settings

1. Click the Windows Flag  in lower left corner of your screen.
2. Click **“Settings.”**

3. Next, click on **“System,”** and go to the **“Power & sleep”** tab.

4. Change the settings for “**Screen**” to your desired setting by clicking on the dropdown and selecting a number of minutes.
5. After your changes have been made, you can close the Settings panel by clicking the **X** in the top right corner of the window.
6. Your screen will turn off after the desired time and your **NJITDM** password will be required to access your computer.
