

Downloading Kaltura Capture

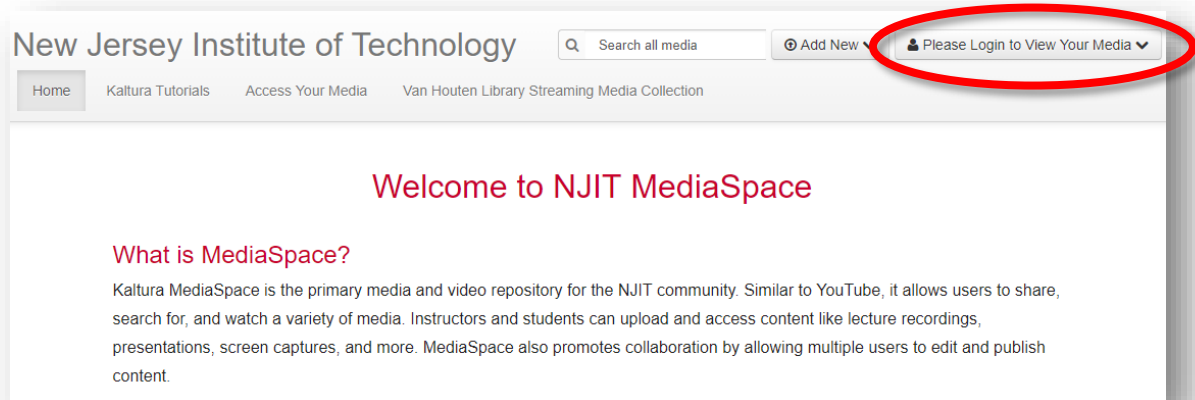

Kaltura Capture is Kaltura's next generation video capture product. Downloading the product is necessary to use it, so please see the instructions below. Once you have downloaded the software, you can begin to record your desktop and create other media.

You can download Kaltura Capture from [MediaSpace](#) or from the My Media page in Canvas or Moodle. In this tutorial, we will be looking at MediaSpace. The operating system you use will determine which recorder you download.

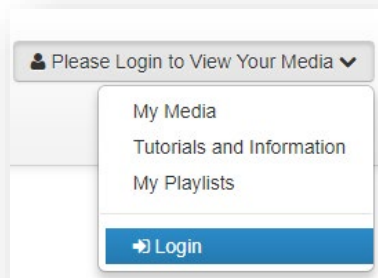

1. Go to <https://mediaspace.njit.edu>.

2. To log into your account, click the dropdown button, **“Please Login to View Your Media,”** in the upper right of the screen.

3. Click **“Login”** to access your media.

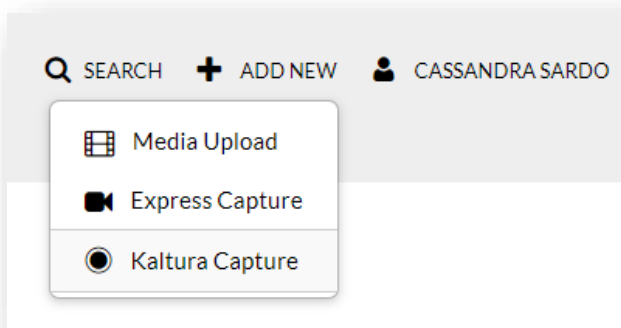

4. Enter your UCID and password and click **“Login.”**

The screenshot shows the NJIT Webauth Authentication Service login page. At the top left is the NJIT logo with the text "New Jersey Institute of Technology". Below the logo, the title "Webauth Authentication Service" is displayed. A message states: "A service requiring authentication has referred you here. For details about the Webauth Authentication Service visit <http://ist.njit.edu/webauth>." There are two input fields: "UCID" with the placeholder text "Enter your UCID" and "Password" with the placeholder text "Enter your Password". Below the password field is a red "Login" button.

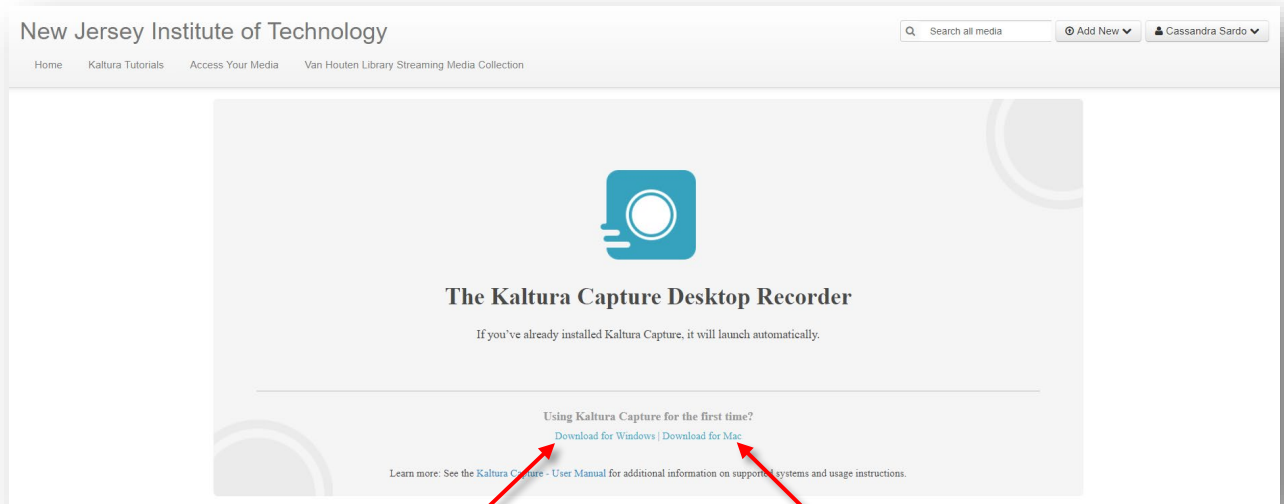

After logging in, you will be redirected to the MediaSpace homepage. From here, you can add new media and share it with others.

5. To add media using Kaltura Capture, click on the **“Add New”** dropdown menu. Four options will appear:
 - Media Upload
 - Webcam Recording
 - Kaltura Capture
 - CaptureSpace Lite

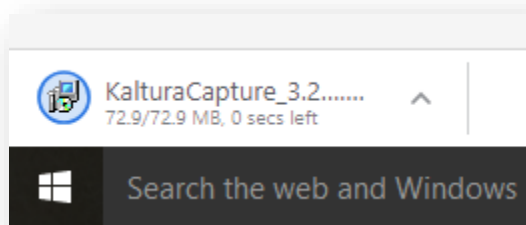

Click on **“Kaltura Capture”** to download the software.

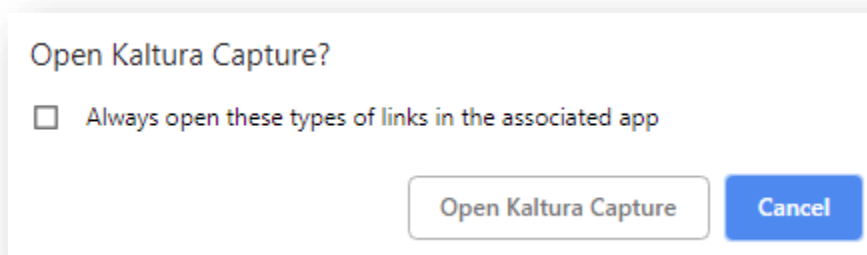

6. Select which desktop recorder is compatible with your operating system (e.g. Windows, Mac).

7. The software will be in your **“Downloads”** folder. In many browsers, it will appear at the bottom of your screen, where you can click on the buttons to finish downloading the software.

8. After the download is complete, return to the **“Add New”** dropdown menu (as featured above) and click **“Kaltura Capture”** in the dropdown selections. Your browser may prompt you to open the desktop recorder. Click **“Open Kaltura Capture.”**

For information on how to move forward with the software, please see our tutorial [Getting Started with Kaltura Capture](#).

Questions?

If you are still in need of assistance, please contact the IST Service Desk.
You can reach the IST Service Desk 24/7.

Phone: (973) 596-2900 | Toll-free: (877) 899-7685
