

Instructions to return Rhino to using NJIT's network license from home (all students should do this unless they do not have access to VPN)

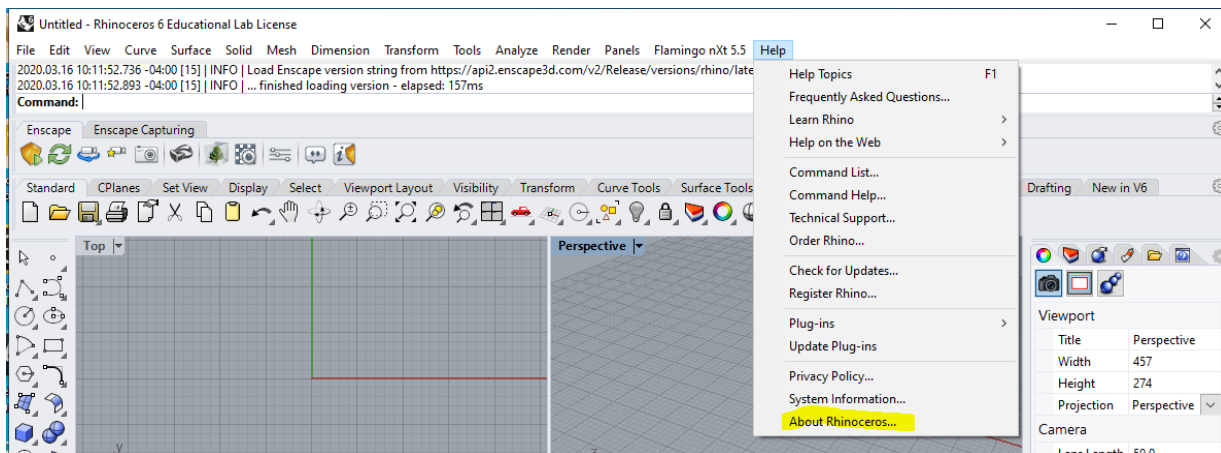

1. Connect to NJIT VPN by following the instructions at <https://ist.njit.edu/vpn>

(If you have not converted Rhino to a trial license previously you are done, all you need to do is connect to VPN and launch Rhino, if you converted to trial please follow directions below to convert back to the Zoo)

Open Rhino. You will see this splash screen immediately upon opening. Click "Change my License Key"

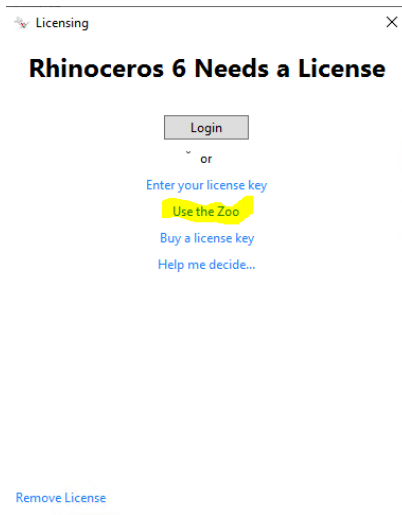

If you do not see this screen after opening rhino you can access it here

Continued on Next Page

Select "Use the Zoo"

Select "Detect Zoo Server automatically"

If you receive an error message it is likely you are not connected to the NJIT VPN. Please reconnect to VPN and try again. If this does not work, please report your issue to the NJIT Helpdesk.
